PRE-DEPARTURE

Website for international students	This website with information on life in the Netherlands and practical matters such as Visa, Housing and Financial Matters will help students prepare their stay.
Housing	<p>Like many universities in the Netherlands, Leiden University does not have a central campus or student dormitories. Instead, our faculties are spread throughout the cities of Leiden and The Hague and students live in accommodation rented via housing organisations and landlords. In general, students are expected to arrange their own housing. We advise prospective students to start to explore ways of finding accommodation well before arriving in the Netherlands to begin their studies.</p> <p>Each year, Leiden University reserves a limited number of rooms via housing agency DUWO for new international students, but due to high demand and limited availability, Leiden University cannot guarantee accommodation to all applicants.</p> <p>Prospective students are thus advised to apply for housing in a very early stage, and to pay the housing application fee (€285) as early as possible after application, and well before the housing application deadline of June 1st for the Fall semester and November 15th for the Spring semester. An application for housing can be submitted via the application portal as soon as their application for admission has been submitted. There is no need to await a decision on their application for admission to Leiden University. Once a student has reserved accommodation via University Housing, the housing agency DUWO further coordinates the process.</p> <p>Housing through Leiden University cannot be guaranteed, we insist that students also seek housing via other routes. If a student needs to find housing independently Leiden University can give advice and tips. Please be informed that private housing can be expensive and is scarce.</p>
Visa and residence permits	Holders of EU/EEA passports do not require a residence permit to study at Leiden University. Students with a non-EU nationality must have a residence permit and in many cases an entry visa as well. Once a student has been admitted to Leiden University, the International Relations Office will work with the student to apply on their behalf. Students should note that there is a fee of €228 for visas/permits (this fee is subject to change annually) and strict deadlines for submission of documents.
Insurance	All students are obliged to have health insurance to cover any medical costs incurred during their stay. We strongly recommend that students ensure they have medical insurance before their arrival. Students are also highly recommended to take out liability insurance to cover any accidental damage caused to other persons or property.

Estimated living expenses	<p>On average, students will need at least €968 – €1338 per month. Also see financial matters.</p> <p>Please note that public transport is not free for exchange students, but discount cards are available.</p>

Within this context, you will be able to create your own programme by choosing a selection of courses that match your background and interests. Alternatively, you can participate in programmes that are especially tailored for students with a particular interest in law, Dutch language and culture, or

Come to the Netherlands: the gateway to Europe

Inspiring and relaxed – these are qualifications that perfectly describe the Netherlands. At the same time, there is much more to say about the country. The Netherlands is one of the safest countries in the world, is in the top 10 happiest countries in the world, and the Dutch have the best English proficiency in Europe, making the Netherlands a perfect study destination!

Typical Dutch

Visionary architecture, vintage-meets-contemporary fashion and interiors, street markets selling rainbows of fresh flowers, herring and cheese, and drinks at canal-side cafés are just some of the reasons to love the Netherlands. Living in Holland means you can enjoy the culture of historical cities like Leiden, Amsterdam and Delft, the fishing village of Volendam, and the cheese capital of Alkmaar.

Did you know that Holland has the largest museum density in the world? Visit the Rijksmuseum, for instance, or the Van Gogh Museum or Mauritshuis in The Hague. The humble bicycle is among the Dutch one of the favourite means of transportation in the country. A bike will most likely be among your first purchases in the Netherlands, and there are over 15,000 kilometers of bicycle paths for you to discover once you get going!

Studying in Holland

The Dutch education system is interactive, student-centred and focused on teamwork, which makes it easy to meet other students. Studying in Holland means developing an open mind and increasing your international orientation. The teaching method at Dutch higher education institutions is founded on respect for each individual's opinions and convictions. This respect is a national virtue that characterises Holland's diverse and pluralistic society. The method aims to provide students with both the attention and freedom they need to develop their own opinions and creativity in applying new knowledge.

International atmosphere

The Netherlands is the gateway to Europe. Paris, Berlin, London and Brussels are all within a few hours of Leiden University and add an additional international aspect to your educational experience.
